

POLYPRIMA REFUSE SACK FOR HAZARDOUS WASTE

Made of prima odorless LLD polyethylene. It is used in the sorting of hazardous waste such as in hospitals and laboratories.

Area of use

Sorting of hazardous waste

Material

Made of prima odorless LLD-polyethylene

Packaging

Packaged in rolls

Recycling

Recycled as soft plastic or as incineration. The burning of the plastic forms only water and carbon dioxide. The energy that is extracted during the process can be used for example for warm-up.
